BERRYMAN'S GREAT HALF PRICE SALE STARTS TOMORROW

THE CHARLEROI MAIL

VOL. XX—NO 47 CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA, WEDNESDAY, JULY 23, 1919 TWO CENTS

NEW BOROUGH BUILDING WAS OCCUPIED BY OFFICIALS TODAY

All Departments Housed Under Same Roof at 4th and Fallowfield

IS COMPLETE IN ALL DETAILS

The old police station at 421 Fallowfield avenue, and which has been used as a general borough headquarters since the old building was given up several months ago, was formally given up today by borough officials. The office of the borough clerk, the burgess and chief of police were moved this morning to the new structure, where they will hereafter be found during their office hours.

The fire department headquarters are also in the new building and much of the furniture of that organization is already in place, while a considerable portion which has been in storage will be moved to the new location and installed for the benefit of the fire company members. The new quarters of the firemen are quite commodious, consisting of a large general meeting room on the second floor, immediately above the equipment quarters, with a smaller office of the fire chief.

The offices of the borough clerk are on the second floor at the corner of Fallowfield and Fourth. His offices connect with the council chamber, a room much more commodious than any which has heretofore been used by the borough legislators.

On the first floor, and directly on the corner, are located the offices of the tax collector, while immediately in the rear are located the burgess' office and the office of the chief of police. Across the hall from the police department are located the lockup, separate provisions being made for male and femal prisoners.

Ample provision is made for the equipment of the fire company the room being very commodious and capable of holding truck as well as hose reels and other appliances necessary for the efficient working of the department. The basement of the building is used principally by the street department, where all its equipment is kept, as well as accommodation for the police patrol.

The second floor is reached by stairways both in front and rear, and the halls are both wide and commodious. The entire building is fitted up in a manner becoming the importance and dignity of a community such as Charleroi, and is a structure of which the citizens will be proud.

The third floor is not open as yet, nor will it be until it is finished and made ready for public use.

When the repairs to the fire truck now in the old fire department are completed the machine will be taken to the new borough building, and the borough will give up its lease of the quarters which it has had for so many years. With the moving of fire truck to the new location all of the departments of the borough will be housed in one building and in close proximity to each other, a conditon which has not existed before for many years. Hereafter the new municipal building will be the center of activities for all borough affairs.

RUN DOWN BY TRAIN NEAR CALIFORNIA

George Savoskey, aged 37 years, a miner employed at the Lilley mine near California, was struck by a train about 5 o'clock Monday morning and sustained a fracture of the right leg, severe scalp wounds and other hurts. He was returning home from work and stepping off one track to avoid a passing train stepped in front of one going south. He was taken to the Memorial hospital.

CAR SECURED ON WRIT OF REPLEVIN

On a writ of replevin issued by William Oats, of McKeesport, a Ford touring car which was secured by the Charleroi police in the recent hunt for stolen automobiles, was taken possession of by the sheriff of Washington county, Tuesday afternoon, the papers being served by Deputy Sheriff George Hornbake. The Sheriff will retain possession of the car for 72 hours at the conclusion of which time, unless a bond is filed the car will be turned over to Mr. Oats.

However, Chief Albright went to Washington today to consult with the district attorney as to what course the local police should pursue in the matter. When Mr. Oats called on the local police several days ago to secure what he claimed was his car, Chief Albright asked him to file a bond that he would produce the car at court should it be necessary, and also to swear out an information against Jennings and Allen in Allegheny county for stealing the auto. This Oats refused to do and the police refused to turn the machine to him. The reply of Oats was to secure the writ of property replivin, by means of which posession of the car has been transferred from the local police to the Sheriff of the county.

If it is the opinion of the district attorney that the police should contest the writ a bond will be filed within the prescribed time, that the car may be available as evidence when the case comes up for trial in the Washington county courts.

NO ARRESTS MADE IN THE BIRKEN ROBBERY

Chief Albright this morning denied the report that four men had been arrested for the Birken robbery and that they were detained in the lockup at the borough building. The police, however have information that leads them to believe the entire matter will be closed up within a very short time.

TRY ANYTHING ONCE

General Committee of Hospital Campaign Meets Thursday Evg.

John D. Berryman, general chairman of the hospital campaign, has called a meeting of the general committee, to meet at headquarters in the new borough building, Thursday evening. At this meeting several details in connection with the work now under way will be taken up and if possible disposed of. The matter of chairmen for the several divisions of work will likely be the chief topic of discussion and an effort made to secure the consent of leading citizens to accept these important assignments. Mr. Berryman recognizes the importance of efficiency in campaign work and it is hs desire to have every committee, either large or small be so ably handled as to get the maximum results.

This afternoon a meeting was held with the Charleroi Ministerial Assocation, and Mr. Berryman and the organizers discussed with them the part the general committee hopes they will take in this important campaign. Every church in the communitty ,Catholic and Protestant is to be asked to take a definite part in this campaign and the meeting this afternoon was one of several that will be held during the campaign.

Mr. Berryman also conferred with Hugh E. Fergus, who has been appointed chairman of the speakers' bureau. Mr. Fergus will likely summon all of the men who served during the war in the Four-Minute Men, and who, he expects will likewise volunteer t heir services in the campaign so auspiciously inaugurated.

The outlying towns and particularly those up the river, are being organized, w ith their own local chairman, and they are expected to be an important factor in the campaign now under way. Gradually the undertaking is assuming the proportions intended by the general committee, and within a few days every committee will be actively at work for the new hospital.

ANSWER FIRST CALL FROM NEW BUILDING

The fire department made its first run from the new quarters shortly before 9 o'clock this morning. The new fire alarm sounded 19, the call to the borough building and the men responded in quick time. The fire was on Fallowfield avenue, at the Jenkins home, below Sixth, but it proved to be of a very light character, and it required but little work on the part of the firemen to restore normal conditions. The quarters reserved for the fire equipment have been cleared of the automobiles recently c ollected by the police, and which had been stolen by two Monongahela men. The machines were taken to the VanVoorhis & Kinder garage, w here they will be stored pending their return to owners.

Notice

The Dunlevy School Board will elect one teacher for primary grade. Apply to secretary Andrew Colvin. Dunlevy, Pa. 44-t4

PROTEST AGAINST REMOVAL OF SCENERY HILL HIGH SCHOOL

WESTMORELAND IS SHORT ON TEACHERS.

County Superintendent Robert C. Shaw and the Westmoreland county school authorities will employ at least 50 married women and a half dozen to 15 ministers to complete their force of 1,500 schoolroom instructors next term, which opens in September. The married women and the parson-instructors will all recieve 25 per cent on their monthly salaries for teaching this year.

CAPTURED CANNONS FOR LOCAL TOWNS

Congressman S. A. Kendall of Somerset, has been advised by Chairman Julius Kahn of California, of the House committee on military affairs, that there will soon be 4,000 captured German cannons available for distribution in the United States which will allow twelve for the twenty-third district, which Mr. Kendall represents. Mr. Kendall stated that he expected to be able to secure a Hun cannon for each town for which a bill has been introduced. This list includes Uniontown, Brownsville and Connellsville.

Under the apportionment which the United States will make, likely according to congressional districts, the twenty-fourth district should receive just as many of these trophies as the twenty-third, which would be divided between the three counties. Lawrence, Beaver and Washington. Just which towns would receive the trophies would be a question. A bill providing that one be donated to Charleroi is now before Congress.

Six big United States warships passed through the Panama canal last week and newspaper, correspondents thought it a great feat. As the canal was built for that purpose, there was nothing wonderful in the performance.

NEW TRIAL REFUSED IN TAXI-FRYE CASE

The motion for a new trial in the suit of Luther H. Frye against the Taxi Transportation company, was refused by the Washington county courts in an opinion handed down on Tuesday, and the court orders that judgment be entered on the verdict of the jury. The case was tried at the last term of common pleas court in connection with a suit brought by the Taxi Transportation company against Luther H. Frye. In this case the plaintiffs sought to recover damages to a taxi by reason of a collision between a car driven by Frye and one of the buses of the taxi company.

Citizens of Township Ask Injunction to Prevent Change

QUESTION IS NOW IN COURT

If the high school of West Bethlehem township is moved from Scenery Hill to West Zollarsville, as provided for in a recent action of the school board of that township, it will have to have the sanction of the courts of Washington county.

The matter reached the courts on Tuesday, when seventeen citizens of the township, and all well known residents t hereof, filed a petition asking for a preliminary injunction, later to be made permanent if, after a hearing the court shall so decide, to prevent the school board from carrying out their intention of moving the school.

The bill alleges that the school was established at Scenery Hill several years ago, that it is a central location and moreover that a building for the accommodation of the high school of the township was erected at a very heavy cost to the taxpayers of the township, and that it has been in use for that purpose ever since.

The petitioners further set forth that the action of the board was not for the purpose of placing the high school in a location better adapted for the service of the whole township, but was for the exclusive benefit of the village of West Zollarsville and immediate vicinity. It is further claimed that it was for the benefit of the borough of Marianna, which lies immediately adjacent to the village of West Zollarsville.

It is claimed that this action on the part of the board is a fraud upon the school district and is an unreasonable and arbitrary exercise of authority which wilfully disregards the best interests of the township and district as a whole.

The petitioners will be heard in court on Thursday at 10 o'clock a. m.

LIST STILL OPEN FOR GUARANTORS

The committee appointed to secure guarantors for the 1920 Chautauqua in Charleroi, report a ready response among the citizens. At a meeting held Monday evening it was decided to continue the canvass for another week, in order that the citizens not yet seen may have a chance to back the movement. If possible, it is hoped thatthe guarantors will number n ear one hundred so that a permanent Chautauqua committee will assure Charleroi of a yearly visit from one of the best attractions on the circuit.

SHANTUNG

That portion of the peace treaty with reference to the province of Shantung is causing more than the usual amount of trouble, and is the subject of intense debate between Senators at Washington. The probabilities are that this provision of the document will be changed or it may result in the rejection of the entire document.

The case of Shantung is very interesting and it worth more than a passing thought. In 1896, Germany having discovered the value of Kiao-Chau Bay as a harbor and point of entrance into the inestimably rich Chinese Province of Shantung, sought a long term lease on it. This China definitely refused to grant. Thereupon Germany began seeking some other means of securing it. Her opportunity came a year later when somewhere in China two German missionaries were killed in a riot. Disregarding the usual methods of exacting indemnity for the wrong, Germany utilized the incident as a pretext for seizing arbitrarily the land which she coveted. Warships were sent to Kiao-Chau, the German flag was raised in token of conquest, and in March, 1898, under ruthless military pressure China was compelled to sign a treaty giving to Germany a lease for 99 years of a large tract of land commanding the entrance to Kiao-Chau Bay and railroad and mining concessions tantamount to control of the entire Province of Shantung—one of the richest, most populous, and in all respects most important province in the whole empire. This performance was universally regarded outside Germany with reprobation and detestation, as criminal spoliation of a helpless nation. This was Germany's sole "title" to the province.

In the treaty of peace the German rights, exacted by force are given to Japan, and this is what is causing the trouble on the Shantung question. It is like taking stolen goods and giving them to some one else, although the owner of the property is the friend and ally of those who endeavor to take away her rights to the same.

THE PUBLIC WHARF.

It is reported that a packet service will be inaugurated on the Monongahela river some time during the coming month, but as such reports have prevailed before and nothing materialized, many people are assuming that Missouri attitude of "show me." No doubt there is business enough for such a packet company on the river, but great difficulty it would encounter would be terminal facilities.

In the good old days, when the only means of communication between the upper end of the valley and the lower markets was by steamboat, but little attention was paid to facilities for taking care of freight at the different landings. Shipments were put off at the risk of owners, but even at that there were but few if any thefts. People appeared to hold property more sacred in those days, and no matter how isolated the landing might be it was generally safe for material and goods to remain out overnight.

Today conditions are radically different. The railroads provide excellent terminal facilities in all towns, where freight can be stored overnight and in the case of trolley delivery much of the stuff shipped can be put off at the door of the consignee. These are the conditions which the new packet company will face, as well as the fact that many of the wharves along the river have been destroyed, while others have been allowed to fall into decay and are now out of repair. However a packet line with a little "push" and good business management might make a difference in the freight shipping business on the Monongahela.

THE APPEAL TO CONGRESS

A petition signed by hundreds of club women of Pittsburg and demanding that something be done to reduce the high cost of living, has been sent to Congress, with a plea that immediate action be taken to reduce prices on the actual necessities of life.

The women ask that for a period of thirty days the price of butter be fixed at 40 cents a pound, eggs at 32 cents a dozen and that the special tax of 10 cents a pound be taken off oleomargarine.

Just what action Congress will take or can take under the circumstances, is a matter of conjecture. It is hardly likely such action as the women request will be taken as to prices, but some measures should be devised by our national lawmakers to relieve present conditions. One of the features which it is said is contributing to the high prices of foodstuffs is the fact that speculators have large quantities bought up with the expectation that the demand from Europe will be so great that they will be able to unload at a great profit. However, in this expectation they may be disappointed. England is receiving great quantities of butter from Argentina, while Australia and New Zealand, which have large stores of foodstuffs are shipping to England by the shipload at frequent intervals. The antipodes have never been short of foodstuffs, and even, during the war were ready to supply all the needfuls, but shipping was not available. Now that ships are to be had in plenty the Anzacs are able to get their products to market and the mother country is profiting thereby. This condition is likely to have an effect on huge stores held in this country for, unless the foreign demand is up to expectations there will be immense quantities in this country for sale at much lower prices.

The trial of the former Kaiser, if it ever really takes place, is bound to be most disagreeable and annoying to the royal house of England. William Hohenzollern is the son of Victoria, oldest child of Queen Victoria, and sister of the late King Edward VII. She was a favorite and much beloved in England. William and King George are thus first cousins. Despite all that he is charged with, even hatred of his own mother, hatred of the house to which she belonged, hatred of England, there is the ineradicable close blood kinship that cannot be ignored.

War has its ups and downs for military men. When peace comes the downs seem to predominate. More than nine hundred regular army officers have been reduced to pre-war rank since the armistice was signed and in a week or so 571 more will go to lower grades. Major Generals are set back to be brigadier generals and in some cases colonels, while brigadier generals become colonels, majors and in several cases captains. After the fighting is ended promotion is the exception and demotion the rule.

Suspension by the Allies of the food blockade against Germany resulted in a drop in prices in that country. The relief was due to the putting on the market of held stocks of foods. The rejoicing of the consumers in the recent enemy country will in all probability be short lived, as when the unloading is ended prices will jump higher again. The dearness appears to be universal.

While Hon. Charles E. Hughes has expressed himself in favor of the league of nations at the same time he says the covenant should be amended or reservations made so as to "safeguard the interests of the country." The opinion is growing steadily that without these reservations the covenant will not be able to get the required votes in the Senate for approval.

This should be a great week for blackberries. Fields in the country are hanging thick with the juicy berries but unfortunately the people are not in shape to take advantage of conditions. Many of these fields are far from the general lines of travel, while in other cases farmers will not permit any one to get into their fields to pick, although the berries in many instances are going to waste.

It is daily becoming more evident that the covenant of the league of nations will have to be modified and clarified in several particulars before it will be approved by the Senate of the United States. It is very evident that it will never be approved in its original form.

If it costs 60 per cent of the total price of bacon to slice it, either the grower and the butcher have too small a profit or the slicer has too much, says an exchange. "Hawg" meat is certainly an aristocrat these days.

Half Price for any Ladies, Misses or child's suit coat or dolman. Sale starts Thursday. Berryman's. 46t2

Entomologist's First Duty.

When a new pest to any crop is brought to the attention of the economic entomologist and a remedy is asked, he must first know just what this insect is. He must know the group to which it belongs, the habits of this group, the exact classification of this individual species. It may be that it will prove to be a perfectly new species, in which case it must be accurately described and properly placed, so that other workers will know about it and about its relationships and its possibilities for harm.

Sudden Cold Kills Fishes.

It has been proved that sudden cold sometimes causes the death of thousands of fish in the shallow waters of the tropics and subtropics. Many species are so chilled as to become helpless, and either killed directly by drowning or are washed ashore in a comatose state. The phenomenon is known locally as "freezing," although the temperature of the water may be several degrees above the freezing point.

About Islands.

As a rule islands belong to the mainland near which they are located. Guadalope belongs to Mexico, that is the one off the coast of Mexico. Andros, to the United States; Margarita, did belong to Germany, and the peace conference will settle its administration. Fiji belongs to England. The Marshall and Caroline islands also belonged to Germany. Marcus island belongs to Japan. Fanning island belongs to England.

Knocking on Wood.

The superstition of rapping on wood after a boast of a piece of luck is of European origin. The raps were supposed to drive away evil spirits vexed by others' good fortune. The raps later signified the Trinity, and the necessity for rapping on wood was because that was the material of the cross. The expression dates from a custom in vogue five thousand years ago.

Says Whales Once Walked.

Whales used to walk. That is the statement of Prof. d'Arcy Thompson, authority on fishes of the sea, in a lecture on that subject at the Royal institution, London. He said the whale originally had four feet or fins, but that the two hind ones had simply dwindled away. In bygone ages ancestors of the present family of whales walked about much as seals do.

Wonderful Is Write.

"Oh, Mr. Tu-nem-Downe," exclaimed Staryupp N. Schibble, "I will admit that my technique may permit of slight improvement, but you must concede that I have a wonderful imagination." "You certainly have, young man," returned the crusty fiction editor, "if you imagine you can sell your bunk to me."

Got Aristocratic Convicts.

Virginia was the only American colony which ever received British convicts, and very few were ever sent there. Most of those sent were political prisoners, and the aristocratic element predominated. In 1676 parliament forbade the transportation of convicts to English colonies in America.

City of Light.

The city of London's one square mile is probably the most brilliantly illuminated square mile in the world. Its lamps have a total of 2,270,000 candle power, which yields an average illumination of nearly one candle power for every two square yards of the area of the city.

She Knew a Way.

A little girl in our neighborhood stumbled and fell, hurting her head quite badly. The hair had to be cut around the wound, and after telling her that her hair would not grow where the hair was cut she said: "It will, if I put some hair seed on."—Chicago Tribune.

How Pleasure Comes.

If you want knowledge, you must toil for it; and if pleasure, you must toil for it. Toil is the law. Pleasure comes through toil, and not by self-indulgence and indolence. When one gets to love work, his life is a happy one.—Ruskin.

Forbidden Fruit.

"It's odd," remarked a woman, "how the dullest of women's luncheons—and oh! how dull they can be!—will suddenly take a turn for the better when some one broaches a bit of gossip. It puts new life into everything."—New York Post.

New Breed.

Donald was enjoying a ride with his mother when he noticed a black and white dog and remarked, "Why, mother, there's a Holstein dog."

A Pun.

There's a man in our town whom they call "the human sponge"—he never feels swell unless he's soaked.—Ontario Post.

Daily Thought.

The first farmer was the first man, and all historic nobility rests on possession and use of land.—Emerson.

Notice.

Notice is hereby given that application has been made to the Public Service Commission of the Commonwealth of Pennsylvania under the provisions of the Public Service Company law, by Bert Unterberger, for a certificate of Public Convenience, evidencing the commission's approval of the beginning of the exercise of the right and privilege of operating autos or auto busses as a common carrier of property between Belle Vernon, Charleroi, Monessen, Donora, Monongahela City, Finleyville and Pittsburg, Pennsylvania.

A public hearing upon this application will be held in Room 807, City-County Building, Pittsburg, Pa., on Wednesday, the 27th day of August 1919.

PROSPERITY AHEAD

America's billion-bushel wheat crop not only means food for suffering Europe, but indicated prosperity for our own country as well.

Hundreds of thousands will help the farmers with the harvest and at excellent wages.

Manufacturing districts will long be kept busy because of the increased purchasing power of agricultural communities and transportation facilities will be strained to the limit.

Thus is seen the importance of one crop to the whole American people. And as we contemplate this inter-relationship, let us remember that thrift alone will make our prosperity worth while and permanent.

FADED PICTURE OF AN OLD BOAT

Cyrus B. Copeland of Fallowfield avenue, has sent to the Mail office a faded picture of the steamer "Belle McGowan," taken at Lock 4 on the first day of October, 1874. The steamer was built by the late Major McGowan, for years superintendent of the Monongahela Navigation Co., which built the locks and dams on the Monongahela river. The steamer was later purchased by the O'Neills of Elizabeth, and at the time of the formation of the Monongahela River Consolidated Coal and Coke company in 1899, was turned over to the new corporation by the W. W. O'Neill Coal company. The steamer was dismantled some years ago, but the man who took the picture and who was in business at that time in Monongahela, as a photographer, is still living, although long since retired from active affairs of life.

CLAIMS DRIVER WAS WATCHING BATHERS

When a Ford machine owned and driven by James Bova of Monongahela, and an Overland touring car driven by N. N. Russell, of Washington came together on the Dry Run road Monday evening, both cars were more or less damaged, and Mrs. Margaret Bova of Monongahela, who was in the car with her son sustained cuts and bruises on her arm.

The Bova car was going out Dry Run and Russell was driving in the opposite direction. Bova claimed that he was on theedge of the brick road on his side and that the driver of the other machine was watching some children bathing in the creek near by. The machines collided and both were somewhat damaged.

A dispute arose as to the responsibility for the accident and resulted in Bova appearing before Alderman Elwood, of Monongahela and preferring a charge of reckless driving against Russell, who will be given a hearing later.

MAKES CLAIMS FOR WAGES ALLEGED DUE

The sum of $6,203.57 is involved in three suits that have been filed against J. W. Fawcett, executor of the estate of William Nelson, late of Carroll township, near Charleroi. They are brought on claims for wages, merchandise and notes.

John Sowers of Monongahela, claims the sum of $3,718.08, with interest from December 28, 1915. The claim covers a period of ten years and is a claim for balance of wages alleged due for that period. Jessie Sowers also of Monongahela, makes a claim for $287.32 alleged due for wages, and Alexander & Co., bring suit to recover $2,198.19 with interest from various dates.

The farm of Mr. Nelson, consisting of over 61 a cres was sold a few days ago by the executor to Elizabeth Bisacky of Carroll township for $4,250.

SELLING THREE PECKS FOR ONE BUSHEL

Another produce dealer was convicted in Pittsburg for selling three-peck baskets filled with produce and calling them bushels. The penalty is $25 o r30 days in jail, which is low enough, considering the high prices people have to pay for foodstuffs.

A Donora party, composed of James P. Castner, candidate for county treasurer on the Republican ticket, Ben Binns, cashier of the First National bank, Editor W. H. Watson of the Donora American, and Roman E. Koehler, real estate agent, were in Charleroi today noon, on their way to Fredericktown and Millsboro in the interest of Mr. Castner's candidacy.

HEAVY STORMS IN SOME PARTS OF COUNTY

Two heavy storms visited Washington county Monday evening one in the northern portion, and the other along the Greene county line and in the Ten Mile valley. The lowlands were ooded infl many places, and considerable injury done to growing crops.

BUILDING TOWN AT NEW COAL MINES

The work of building the town at the coal plant of the Mather Collieries company at Jefferson, Greene county, on Ten Mile creek, is progressing steadily. Just recently the work was started on 70 new houses for the coal town. The coal company is spending $35,000 this summer on the construction of roads and streets. A motion picture building is being erected and everything being done for the well-being of the men employed about the large mine.

Much coal has been mined during the past few months, but shipments are quite slow. The railroad is not completed, although coal has been going out over the road for some time. At the present time it is impossible to get all the empty cars to load that the company would like to have.

MARVELLO

Greatest discovery since soap was invented. A tablet washes dirtiest clothes in 10 to 15 minutes, absolutely without rubbing. Makes the hands soft and white. Positively harmless to everything but dirt. Women are astounded at the results.
Its action is simply miraculous and amazing.

TO FORM THREE NEW BANKS IN MONESSEN

Monessen is to have three new banking institutions, one of which will be a national bank, the second a Trust company, and the third a foreign exchange bank. The town already has three financiaal institutions, which for many years have taken care of the financial needs of the people of that community, one being a national bank, another a state bank and thethird a Trust company. The growth of the town in the past decade however, has caused the necessity for greater financial facilities, which are now about to be provided by these new institutions which expect to be ready for public business in a comparatively short time.

MONESSEN HOTELS ARE BEING CHANGED

Three of Monessen's former hotels, the Sheetz, the Grand and the Monongahela House, have been disposed of by their former owners, and it is expected they will be turned into other channels of trade. The Sheetz hotel was purchased by N. J. Weiss who conducts a clothing store in one of the rooms of the building; the Grand hotel and the Monongahela House were purchased by W. S. Bumbaugh,who disposed of the Grand to a jeweler Monongahela House will also be remodeled into a modern business block, these changes being made at once. The prohibition amendment is responsible for this disposition of these former hotel buildings.

Wait for Berryman's half price sale, Thursday. 46-t2

TOPERS TURNING TO EXTRACTS FOR "JAGS"

Old topers at "little" Washington are said to be turning to lemon extract and eau de cologne as a substitute for old John Barleycorn, as numerous empty bottles in many of the back alleys of thecounty capital would indicate. That lemon extract is not exactly a temperance drink may be gleaned from the fact that the label each bottle is required by law to bear distinctly reveals the alcoholic content at from 50 to 60 per cent. Eau de cologne is not far behind it. Lemon extract is said to tend to foolishnes, while cologne water gives the breath a delightful odor.

Half Price for any Ladies, Misses or child's suit coat or dolman. Sale starts Thursday. Berryman's. 46-t2

HEADACHES SOON TELL

SURE SIGN OF TROUBLE

When you complain of a headache, whether it be sick, nervous or just "plain," you can usually be sure that your bowel and stomach organs are upset and need attention. Just one BA-HA-NI with your evening meal and the cause as well as the headache is gone! BA-HA-NI regulates you and keeps you in such condition that headaches, dizzy spells and biliousness attacks have no chance of forming. Start this very evening to let BA-HA-NI k eep you in shape! Sold by Henfings Drug Store and leading druggists everywhere.

Berryman's Half Price Sale starts Thursday. Any Ladies, Misses or Children's suit, coat or cape to be sold at half price. 46-t2

Only Foolish Depend on Luck.

The person who depends upon luck may find advancement for a time, but any success which is founded upon luck or privilege is bound to be unstable. Take any great man or woman who has reached the top and you will find that they have fought every step of the way. It is nevergan easy thing to climb a high hill, but there is always a good view at the top. If we are content to stand at the bottom and see other people climb, that is up to us.

Date Trees Flourish in Arizona.

That dates can be made to thrive in Arizona is being demonstrated by the agricultural experiment station of the University of Arizona, whose orchards contain 508 trees, representing 125 different varieties. The fruit is ripened artificially and marketed in the East. Alkaline soil and the available water of the region appear to be well suited to the needs of the date trees, which, it is declared, will bear fruit for 100 years.

Work and Avoid Fretting.

Labor of any kind is healthful. You can hardly put more upon a human being than he can bear. But fretting so dissipates our energy that we have no force left for actual work. Energy, even like the Biblical grain of mustard seed will, if not dissipated by destructive emotions, remove mountains, and bring you to the very door of success.

Concentrate, and Win.

If you would reach the goal you have started out to attain, stop squandering your forces, and then, instead of wondering why you have failed, you will be surprised to find yourself on the road to success. For you will have accomplished more than you had ever dreamed was possible in the old days when you so dissipated your energy.

Artificial Marble.

Artificial marble for fancy articles is made by soaking plaster of paris in a solution of alum, baking it in an oven, and then grinding it to a powder. In using, mix it with water, and to produce the clouds and veins stir in any dry color desired; it will become very hard, and is susceptible of a high polish.

Looked Out of Place.

Mary Jane was glad when William came over to play with her, but was surprised when she saw he was all dressed up in his best clothes, and after looking him over from head to foot, she asked severely: "Why, William, for why you wear your Sunday clothes on week days?"

Phrenology.

Phrenology is a psuedo-science whose devotees claim that the external features of the skull furnish an index to the mind and character. Since its origination by Doctor Gall, in 1796, the system has undergone many changes, but it does not exist in the realm of the recognized sciences.

Aim at perfection in everything, though in most things it is unattainable. However, they who aim at it and persevere will come much nearer to it than those whose laziness and despondency make them give it up as unattainable.—Chesterfield.

The Biggest Dollar.

There are those who gauge the worth of a dollar by the things it will get to add to their own selfish happiness. Poor way, though. You and I never will know the true value of a dollar until we spend it for somebody else.—Exchange.

Bay rum seems to be the favorite beverage now, with a green-colored hair tonic running a close second. Several of our Beau Brummels seem to have a severe case of dandruff of the liver.—Boston Transcript.

Furnish Good Example.

Be a pattern to others, and then all will go well; for as a whole city is affected by the licentious passions and vices of great men, so is it likewise reformed by their moderation.—Cicero.

Not Alarmed.

"The crows don't seem to pay any attention to that scarecrow." "No. The pesky critters think it's one o' them artists from the city drawin' pictur's."—American Boy.

Daily Thought.

A man is the whole encyclopedia of facts.—Emerson.

TAKE ADVANTAGE OF LOW PRICED GOODS

Acting under direction of the borough council, a committee of Washington citizens is in Baltimore for the purpose of purchasing at least one, and possibly five carloads, of foodstuffs which the government has for sale. The amount of purchase by the committee will depend materially upon the character of the goods offered. If everything proves satisfactory the goods will be secured and shipped to Washington, where they will be disposed of the citizens of that community at prices much below those that now prevail and possibly less than at the present wholesale prices.

WILL CELEBRATE SUFFRAGETTE VICTORY

The Monongahela women who so ardently supported the suffrage cause in its darkest days and went with it through its period of reverses to final victory in Pennsylvania, will celebrate the affair Friday afternoon, August 1, with a Victory Garden Party at thehome of Mrs. H. C. Surman, Try street in thecity. The house and the spacious lawn will be utilized for the occasion.

PRISONER TAKEN TO THE COUNTY JAIL

Chief took William Allen of Monongahela, charged with larceny of automobiles, to the county jail today. Allen was held in the local lockup in the expectation that his friends would produce the necessary bail of $2,000, but as it was not forthcoming the local authorities deemed it advisible to take the prisoner to the county jail, where he will be held until the n ext term of court, unless the case should be sooner disposed of

HEAVY WIND STORM ALONG TEN MILE

The storm of Monday afternoon and evening was somewhat destructive in territory adjacent to Ten Mile creek, the principal damage being caused by the high winds. Trees were uprooted, telephone and telegraph poles blown down, and in some instances damage was done to buildings. The rain was heavy but did not lost long enough to raise the level of streams, but the wind was cyclonic.

PETITIONS ARE BEING RAPIDLY FILED

Many petitions are reaching the commissioners' office at the present time, indicatng that ther ewll be plenty of candidates at the coming primary. Among the petitions filed on Tuesday was that of William H. Davis, for constable of Charleroi on the Democratic ticket.

FATHERS OF FIFTEENTH ENGINEERS TO MEET

A meeting of the fathers of the Fifteenth Engineers will be held in the Century b uilding, Pittsburg, Frday evening, to consider suggestions as to how best to finish the club house work and make ready to turn the club rooms over to the boys

George Arnold, Joe Martucci, Harold Furnier and David Johns were among those present at the bargain bill between the Giants and Rates at Forbes Field on Tuesday.

DESPONDENT WOMEN

A prominent writer claims that "women are naturally despondent," but often mental depression may be attributed to an abnormal condition of the system, which expresses itself in nervousness, backache, headaches, sleeplessness, and consequent despondency. Lydia E. Pinkham's Vegetable Compound goes to the root of this trouble it gives tone and strength to the system and restores women to a normal, healthy condition.

Bad Results From Taking Substitutes For Nuxated Iron

Startling Case Cited—Physician Warns Public and Says Ordinary Metallic Iron Preparations Cannot Possibly Give The Same STRENGTH, POWER AND ENDURANCE AS Organic Iron—Nuxated Iron.

The tremendous success of Nuxated Iron as a tonic, strength and blood-builder (it being estimated that over three million people annually are now using it) has led to the offering of numerous substitutes and imitations. Investigation shows that many of these instead of being organic iron may be nothing more than a metallic iron compound which may in some instances produce more harm than good. Typical among the cases reported is one of a woman who has threatened to sue for damages the druggist who sold her something purporting to be the genuine Nuxated Iron but which, while similar in name, package and appearance was nothing more than a spurious article, imitating the real. This woman claims that instead of obtaining increased strength and improved health as she had with the true Nuxated Iron, she was seriously upset and in fact became ill as a result of using the substitute.

Such instances as these have led physicians mentioned below to emphasize that health officials and doctors everywhere should caution the public against accepting substitutes for Nuxated Iron. Those who feel the need of a strength and blood builder should go to their family doctors and obtain a prescription calling for organic iron—Nuxated Iron—and present this to their druggist so that there may be no question about obtaining the proper article. But if they do not wish to go to the trouble of getting a prescription for Nuxated Iron then they should be sure to look on the label and see that the words Nuxated Iron are printed thereon.

There are thousands of people taking iron who do not distinguish between organic iron and metallic iron and such persons often fail to obtain the vital energy, strength and endurance which they seek simply because they have taken the wrong form of iron. If you are not strong or well, you owe it to yourself to make the following test. See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength and see how much you have gained.

MANUFACTURERS' NOTE: The widespread publication of the above information has been suggested by Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital (Outdoor Department) New York and the Westchester County Hospital; Dr. Ferdinand King, New York Physician and Medical Author; Dr. George H. Baker, formerly Physician and Surgeon, Monmouth Memorial Hospital of New Jersey; Dr. H B Vail, formerly Physician in the Baltimore Hospital and a Medical Examiner and others so that the public may be informed on this subject and protected from the use of metallic iron under the delusion that it is Nuxated Iron or at least something as good as Nuxated Iron. Nuxated Iron, is not a secret remedy but one which is well known to druggists. Unlike the older inorganic iron products it is easily assimilated, does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed in this city by all good druggists.

Thousands Exterminated

Tape-Worms With Head

Thousands are suffering from tape-worm, but are treated for some other disease without getting any result.

A SURE SIGN of the presence of these parasites is: Passage of round, longitudinal or pumpkinseedlike particles or other worms.

Suggestive signs are: Pale, blasted appearance, dark rings under the eyes, emaciation, continuous spitting, coated tongue, loss of appetite, with occasional greediness, indisposition after taking certain food, as: Herring, Onions, Vinegar etc., even spells of fainting with an empty stomach, appearing indolent, raising of obstruction in the throat, sour stomach, heartburn, pain in stomach, head-ache, humming in ears, with feeling of having a heavy moving mass in the body cutting pains in intestines, rumbling and wavelike movements, palpitation of the heart, exhaustion, heaviness in limbs, sediment in urine, etc. In addition thereto, may exist sympathetic disturbances which sometimes assume a grave character, hemorrhages, menstreal irregularities, hysterical fits, chorsic convulsions and even epileptic attacks.

MY METHOD EXPELLS THE TAPE-WORM

within one to four hours, without danger, painlessly, no fasting, no detention from home or work.

"Y" Retraining Wounded Doughboys.

The most complete and modern camp organization in the United States for the retraining of wounded soldiers is at Camp Dix, New Jersey, where a school has been established by the Y. M. C. A. with the co-operation of the army. Here a soldier who has been incapacitated for his former vocation, or the man who wants to make a new start, is given, free of charge, a thorough course of instruction in his chosen field, under trained technicians and with the most modern equipment, so that when his cure is complete, and his discharge is given him, he is ready to face life and a new job with confidence. The men in this photograph are learning automobile mechanics, one of the most popular courses offered. Practically all of the wrecked cars, sectioned models and separate parts have been donated by manufacturers to the school, which is operated by the Y. M. C. A. Wireless operating, shoe repairing, tailoring, sign lettering, stenography and typewriting also are offered at Dix and are much in demand by soldiers who have lost a leg, or possibly both legs. Farming is taught in a short, practical course, especially designed for shell-shock patients and soldiers who are nervous and tired after the strain of the trenches. In all, about a dozen different trades are taught at this "Y" school; and in addition to these, the three R's.

INDIAN PRINCESSES ENTERTAIN DOUGHBOYS

The Princess Tsianina is one of the three full-blooded Indian princesses who have gone abroad for the Y. M. C. A. to entertain the doughboys of the A. E. F. Tsianina is at present in Germany, where she goes from one division to another telling Indian folk

PRINCESS TSIANINA.

lore stories, singing Indian chants and dancing Indian camp fire dances.

This all pleases the American soldiers immensely, though the strange figure of a copper colored girl in leather, beaded robes, her hair down her back, and her feet in moccasins, is quite too much for the limited imaginations of the German inhabitants who see her! Uniformed "Y" girls are no longer a novelty in Germany, but the none too agile minds of the Germans will never become accustomed to Tsianina. The other two Indian maids who are entertaining the Americans are the Princess Blue Feather, direct descendant of Montezuma of the Aztecs and the Princess Gallohi of the Cherokee tribe.

REJECTED BY ARMY, WON D. S. C. AS "Y" WORKER

His eyes were not good enough for the army but they served Thomas W. Wilbor, Jr., of New Britain, Conn., very well, after all, for he discovered when he went to war in a Y. M. C. A. uniform that he could see anything on the whole battle line—except danger. Day after day and night after night Wilbor fought it out with the Sixth

THOMAS W. WILBOR, JR.

Machine Gun Battalion of the Marines, disregarding orders to go to the rear, giving out cigarettes and chocolate while they lasted, and then jumping in to help with first aid to the wounded. He was under almost constant shell fire, for the Sixth Battalion had some hard fighting, and they never went into a single engagement that the faithful Wilbor wasn't right with them, in the front ranks, usually.

In October, while he was working with the medical attendants in a dressing station at Blanc Mont, he was hit in nearly a hundred places by fragments of a shell which smashed through the roof. For brave conduct under fire during the St. Mihiel drive he was awarded the D. S. C.

HELPING TO ADJUST DOUGHBOYS' INSURANCE

New York, June 30.—Because of the failure of thousands of soldiers and sailors to convert their war risk insurance into civil insurance under the government plan, the Y. M. C. A. Eastern Department, (which comprises New York, New Jersey, Maryland, District of Columbia, Pennsylvania, Delaware, Virginia and West Virginia) has undertaken a special campaign to assist the War Risk Insurance Division in this work.

The "Y's" part of the job will be to explain the system to the men in camp and station, to hold conferences, and in every other way possible to bring the government scheme, which is extremely attractive as an insurance proposition, before men in uniform. All of the "Y" work along this line will be under the direct supervision of District Insurance Officers of the Military. Moving pictures, bulletin boards, lectures, personal conferences, will all tell the insurance story in "Y" huts throughout the Eastern Department. The government has been enormously handicapped in the insurance division by the neglect of soldiers to take any action on the conversion of policies.

RUSSIAN BOY "VETERAN" RESCUED BY THE "Y"

Dmitri Veteschenski enlisted in the Russian army at the age of nine, spent two years in the trenches, was wounded three times, captured by the Austrians, and finally rescued by the Y. M. C. A. along with 1,500 other small boys in the Austrian prison camps. The "Y" succeeded

DMITRI VETESCHENSKI.

in having the youngsters segregated from the men prisoners, whose burden and hardships they had been sharing, opened a school for the boys, and provided them with games, movies, libraries and medical attention.

Dmitri went to war as a water boy and ammunition carrier. He got a bullet through his arm, and then later was wounded twice by shrapnel. He was wounded when captured, and was in an impoverished physical condition when the "Y" discovered him. He is a real soldier, however, soon recovered under the program of activities that the Y. M. C. A. provided, and shrugs his shoulders, just like all other veterans, if attention is called to his exploits in the army.

Dmitri is now on his way to northern Russia, where he will continue his "Y" schooling.

"Y" WAS FIRST, WILL REMAIN TILL THE END

Sticking to the doughboy through thick and thin has been the work of the Y. M. C. A. during the war, and now that hostilities have ceased and peace is on its way, the "Y" workers more than ever are on the job wherever the man in uniform needs them. The thick of it was war, but any soldier will tell you that the thin of it is peace, and it is to fill these long, lean hours of idleness that have come with the armistice, that the Y. M. C. A. has taken up its new duties with the A. E. F., increasing generously its program of athletics, entertainment, and amusement.

Just as the Y. M. C. A. was the first to greet the Americans when they arrived in Europe, so it will remain until the end and bid goodby to the very last doughboy that leaves France, no matter how far in the future that time may be. At the time of the signing of the armistice, the Red Triangle was operating overseas fifteen times as many service buildings as all other war organizations combined, with the exception of the Red Cross, and it has no intention of doing anything else but keep up this work so magnificently started. "Y" men and "Y" women are still being sent to France, England and Germany, to bring fresh cheer to the Americans there. "Y" huts are the last buildings to close in home camps on this side, and will be the last buildings to close on the other side. The Y. M. C. A. is in to stay.

The Buick Model H-Six-45

THE Buick Valve-in-Head motor is designed to get the most out of every gallon of gasoline—and does it.

In this motor the cylinders have no "alcoves" or side-pockets. The full force of the explosion is received by the pistonhead,—where it means *power*,—increased vigor, lessened wastage—conserved energy.

And these cylinders, lacking side-pockets, are quickly and thoroughly cleared of dead gas after each piston stroke—insuring a capacity intake of fresh gas for each explosion.
